

Suspended AMAXX® Power Distribution

High-performance Non-metallic Enclosures for Overhead Power

AMAXX®
by MENNEKES

Suspended AMAXX Power Distribution

Simplify overhead power with Suspended AMAXX. Building upon our line of high performance power distribution products, one AMAXX enclosure can hold different combinations of receptacle devices to eliminate multiple cord drops. Suspended AMAXX is UL Type 4X rated with four module provisions available for your requirements.

With Suspended AMAXX, you have the ability to customize a design to your plant standards. Installation options include a circuit breaker access window for localized protection, 20A and 30A switched and interlocked receptacles, watertight pin and sleeve or NEMA standard receptacles, as well as Ethernet and CAT 6 ports. Units are delivered pre-wired from our factory for quick and easy installation.

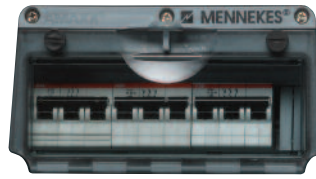

Suspended AMAXX® Power Distribution Options:

Contact us with your requirements and we will design and quote a unit made to order.

Switched and Interlocked Receptacle Modules

- Disconnect switch prewired to IEC 60309 pin and sleeve style receptacle
- Available in 20A and 30A; 3, 4 or 5 Wire
